

Always Clear

Always Clear will be offered on days when the snowfall is between 1-3" at our Teton location and we are not running a regular snow shift. Unlike our regular service where we need 4" by 7am, Always Clear shift will be called if there is 1-3" by 9am. 'Always Clear' driveways are only cleared on days when we are not performing a regular snow clearing shift.

Procedure:

- No seasonal minimum or upfront fee.
- The cost per clearing will be determined on your agreement.
- The Always Clear service is a subscription just like our regular service. It is not a one-time service or an a la carte option.
- Our Always Clear routes will be established prior to the snow event just like our standard service.
- On the days we call an Always Clear shift, you will be automatically charged. We require a valid credit card on file.
- Like our standard service, you will receive an email update to let you know a shift was called.
- Always Clear is only offered to current Snow Removal clients.
- If you elect this service, it will go into effect 48 hrs after you sign-up.
- Customers can opt-out after sign-up if they are unhappy with the service, however once you opt-out, the service cannot be added back until the following season.
- Caveat: In the event that it snows 1-3" by 9 am and we run an Always Clear shift in the late morning, and it continues to snow in the afternoon and evening, we will not be going out again until the next day. Depending on the amount of snowfall, we will either be running a regular, full shift overnight (included in your regular season service) or another Always Clear shift the next day.

Please read the information below to determine if our 'Always Clear' program is right for you:

Who Needs This Service?	Your driveway may be steep, shady and difficult to navigate with even a little amount of snow. You want the peace of mind knowing that your driveway will be cleared whenever it snows.
How Do You Set This Up?	Just contact us once and let us know to clear your driveway whenever TD receives 1 to 3 inches of snow. (Must have our Regular or Premium seasonal snow removal program in place)
What Is The Cost Per Clearing?	Price set per clearing for the average sized TD driveway, charged to your credit card upon clearing completion.
How Frequently Is Your Driveway Cleared?	Once per day anytime TD receives 1 to 3 inches of snow by 9:00 am.
At What Time Of Day Will Your Driveway Be Cleared?	Driveways will be cleared between 9:00 am and 2:00 pm.
